

!-D!

**OH
TENERIFE!**

It's all REAL.

~~Dirty Diana~~

Hoggs of Fife is an established Scottish clothing brand that is known for its practical and durable country clothing. Each year a range of Hoggs of Fife products play an important part within The Country Catalogue collection; this year is no exception.

AW12 signals the introduction of some new products, alongside the return of popular items from previous seasons.

The new Field Pro Soft Shell Jacket is synonymous with the Hoggs of Fife brand. It is a practical, versatile and well designed product that is very good value for money. The combination of a Polyester soft shell fabric and PU membrane make this jacket highly wind-proof, warm and breathable, as well as water resistant.

Another new addition to the Hoggs of Fife range is the Aqua-Tuff Safety Rigger Boot. A steel toe, steel midsole, protective reinforcement and excellent traction from the deep cleated sole make this boot extremely practical, strong and hard wearing. The kick-off heel spur, leather pull-on tabs and durable fleece lining mean that this hardworking boot is comfortable and easy to wear.

As the warmest days of the summer are now upon us, finding a cute hairstyle that is fun but still keeps you cool can sometimes be challenging. But, there have always been a few tried and true hairstyles that work for ladies of all ages every summer.

The first is the classic and traditional pony tail. Though it is a simple and easy look, it is quite possible to make just a few changes to the style to really update the look and change it up a bit.

The first would be to wear a low and loose pony, a look that says beachy summer fun. Another great pony tail look that shows a bit of elegance for a night out is to wrap a bit of hair around the elastic, this hides the hair elastic and provides a classy and complete look.

You can also add in twists and braids into your pony tail style, this will add some great texture and design to your hair, and can really turn your look into something that can go right from the office to a ladies night out in town.

Many ladies also add fun accessories to pump up the style of their pony tails. This could be as simple as using hair elastics that have flowers on or even feathers. Adding a cute headband is yet another great way to give a standard pony a little bit of a lift in the summer.

The Reading Sunglasses season is almost upon us while we sweep away the snow and shake off the winter blues and dream of soaking up the rays next to the pool, or on the beach, in some exotic, tranquil location. However, there are many of us who are bored rigid by the thought of lounging on a sunbed in order to impress our friends and colleagues with our suntan when we step off the plane or back into ***THE OFFICE.***
